PRINCE OF WALES.

"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfeet or carefully-adjusted mechanism." - Times, June 11, 1862: "A triumph of ingenuity." Telegraph, March 31

piece of mechanism we have never seen,"--Standard, June 17. 1862. " Some of them are of great beauty; and if the English watch-trade only follow up with the same pirit and success this first attempt to compete with foreigners in decorative watches, there scems to be no reason why we should not get the trade entirely into our own hands."- Times, June

"A more splendid and exquisitely-finished

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well're paid the trouble of an inspection." - Illustrated London News, November 8

proposed Building. The space which, is it confidently hoped, wil be thus placed at the disposal of the Committee will enable them to entirace in their scheme the following accompdation ---1. A Public Hall, to be called the St. Andrew's Hall, in acknowledgment of a sum of Five Thousand Dollars, which has been voted to the under taking from the surplus Funds of the late St. Androw's Echoul. This room will be available for

Public Meetings, Public Dinners, Bulls, Converts, and other public purposes. 11. A Supper Room adjoining the Hall, and which, together with the Hall, can be used, when not specially required for other purposes. as an Exchange.

III. A Room for the Chamber of Commerce, where files of Newspapers, Prices Current, Books of Commercial reference and Telegrams will be opened to the use of Subscribers to that Insti-

IV. A Public Library for the objects stated by the Trustees of the Morrison Education Society in their printed Citualar of the 1st May last. V. A permanent Theatre, which will encourage visits to Hongkong by musical and histrioric artists from other parts of the East, and will abviste the necessary heavy and unsatisfactory out lay which the frequent erection of temporary Theatre has hitherto entailed. The remainder of the space will be absorbed b

the Harbour Master's Office, which will be remored from its present position to one appropriated for it in the North Lastern angle of the intended building, in accordance with the proposal submitted by the Committee to Government for permission to use the site which that office at present artially occupies. Finished plans have not yet been prepared, and

it is proposed that, at the proper time, they should be thrown open to competition, but the Committee have satisfied themselves that the space that have applied for will be ample for carrying on the various objects enumerated alove on a rest which will render the intended edition an ornamen to the City, a convenience to the public and is every way worthly of a Colony waste rapid a owfland or grees are the surest prouts of its wealth "mterprise and prosperity.

The urgency of the want that exists f r a Puls-

lie Building of this nature need scarcely be dilated on. Without diverting the Club House from its legitimate uses, at a great sacrifice of the convenience of its members, there is not in the length and breadth of the City a suitable room which can be commanded for any object of general or cocla interest. The difficulties that attended the lineugurntien Dinner of the Volunteers, the allandonment last winter of a Masonic Ball for want of a room to hold it is, and the disa lyantages to which the professional Art ets it present here are exposed, are a few instances aniongst very many of the inconveniences occasioned by the the want of City. Hall, a want, the Committee believe, which is not shared by any other foreign Community'o equal importance East of the Cape, a want which has been recently supplied at Singapore and which they trust will not be allo ved much longer to cerve

as an indication of an absence of public spirit in The preservation of the valuable of ections of Books in the care of the Trustees of the Morrison Education Society, and which are threatened with decay for want of a proper plice of deposit, is an object which especially commends iteelf as a matter of public import in a region so remole from the great centres of civilization, and where the want of standard works of reference and solid instruc-

This amount, which has been collected from vari- to. &c. ous sources without any appeal having yet been made to the Community generally, fall, however, obviously short of what will be required for the purposes contemplated, and the Committee trust that further contributions will be liberally and spontaneously tendered in support of the undertaking. Old recidents, in retiring from the Colony may perhaps adopt the example of some who bare preceded them and efince their interest in its progress and in the well-being of their successors by a contribution to the Fund. The payment of interest on the Canton claims also affords an op portunity for Donations of sums of no great importance individually, but which in the aggregate would materially assist the common object,

The Provisional Committee in concluding their present report, have thankfully to acknowledge the receipt of various amounts from Mr. John l'ent. Mr. C. F. Still, Mr. Edward Webb, the late Mr. Angus Pletcher, the Churul Scorety of Hongkong and the Trustees of the St. Andrew's School. Putther Subscriptions will be received by either of the Trustees.
